XiSync

AI-Powered Global Export Operating System

Make every export order flow from inquiry to delivery

Unify global inquiries, accelerate overseas deals, automate customs compliance, and track factory-to-port freight — the unified intelligent platform built for Chinese export manufacturers.

Integrated global channels & platforms

Alibaba.com · Made-in-China · WhatsApp · WeChat · Facebook · Instagram · TikTok · Google Ads · Meta Ads

For Chinese export manufacturers · Enterprise SaaS platform

XiSync.com

01 · PLATFORM OVERVIEW

One platform for the entire export chain

XiSync unifies lead generation, communication, CRM, negotiation, logistics, customs compliance, and website building into one operating system — so your export team completes the entire flow from inquiry to delivery in a single workspace.

Omnichannel Unification

Inquiries from all channels flow into one inbox. AI translation breaks language barriers; buyer data auto-archives.

AI Across the Flow

From inquiry classification and smart quoting to autonomous negotiation and demand forecasting — AI powers every step.

Single Source of Truth

Catalog, inventory, and orders unified. Marketplace and website inventory sync in real time, both ways.

02 · CORE FEATURES

Eight core modules covering the full export workflow

Deep intelligence at every stage, from acquisition to delivery

Omnichannel Buyer Inbox

Unify WhatsApp, WeChat, Facebook, Instagram, TikTok, and email. Real-time bilingual translation; auto-linked buyer profiles and quote history.

AI Trade Assistant

Autonomous negotiation engine prices dynamically by raw material cost, MOQ, and tariffs. Buyer price-sensitivity simulation. Auto contract clauses. Global demand forecasting.

Global Logistics Tracking

Sea, air, and express multimodal tracking with vessel voyage and container status. Spot rate comparison, smart route risk control, customs node mapping.

Global Trade Compliance

Lifecycle management for EU, FCC/FDA, UKCA, Middle East, and IEC certifications with automatic expiry alerts.

Marketplace Sync

One-click import of all Alibaba and Made-in-China listings into your catalog with bidirectional price and inventory sync. SKU mapping, incremental and full sync.

AI Website Builder

Generate multilingual storefronts with Home, Products, Factory, Logistics, Certifications, and Contact templates. Auto catalog sync, SEO metadata, DNS and analytics.

Global Digital Ads

Unified management of Facebook, Google, and TikTok ad accounts. AI creative studio, attribution tracking, ROI dashboards. Agency parent accounts and global kill switch.

Credit Risk Shield

Importer credit scoring, sanctions list screening, wire fraud detection, tariff change alerts, and letter-of-credit review thresholds. Protect every transaction.

03 · HOW IT WORKS

How an export order flows through XiSync

From overseas buyer inquiry to goods delivery — fully trackable, automatable end to end

1. **Buyer Inquiry** — Multi-platform multi-channel
2. **AI Translate & Categorize** — Real-time auto-profile
